Registration procedures: the WSG2015 online platform

To warrant an effective registration, AICS provides an on-line registration platform, which will guide and support each of you through the fulfilling of the procedure.

By clicking on the related banner provided on the official website (www.wsg2015.com), each user enters the WSG2015 official platform, where the preliminary registration procedure has already been set.

The registration consists of a process divided into three phases: (1) the platform registration, (2) the preliminary registration and (3) the definitive registration.

The **platform registration** – CSIT member union has been already registered by AICS, and will receive its specific username and password following this invitation (so they can immediately start the preliminary registration); all the other Unions and organisations need to register themselves formerly on the platform.

The platform registration is a very easy procedure:

- on the main page of the platform, just click on the **“SIGN UP TODAY”** button;
- **compile a form** with the main data of the organisation, specifying the email address and contact person of the organisation itself;
- click on the **“Save changes”** button directly on the form.

Once completed, and after the organizing committee approval, each organisation will receive by email its specific username and password, which are necessary to start the preliminary registration on the platform.

The **preliminary registration** – each registered organisation can enter the preliminary registration procedure directly on the main page of the platform, by the “login” area in the former part of the page.

Once completed the login procedure, just enter into the **“ATHLETES REGISTRATION”** area, compile the related form, indicating the number of persons envisaged for each sport discipline (athletes and officials) as well as the accompanying persons and click on the **“OK”** button directly on the form.

Doing so, you will enter the “2-step” procedure set for the advance payment established by the preliminary registration rules (see the next section “Registration and Payment” for further details) and:

- **STEP 1 – select the preferred packages for accommodation and any other foreseen services**, according to the number of persons indicated in the previous form (an automatic procedure will guide you in order to avoid any accidental mistake); go to STEP 2;
- **STEP 2 – select the payment mode you prefer** (two alternative ways are expected, via credit card or bank transfer), and **checkout**. If you have selected the credit card mode, you will enter a secure area where you can complete the payment. Else (if you have selected the bank transfer mode), you will be provided with the data needed to complete the payment by your own. In anyway, **you will receive a confirmation of the purchased order**.

The **definitive registration** – using the provided username and password in the login procedure, always starting from the platform main page, after the 15th of February 2015 you will have the opportunity to **complete the athletes registration**, both by **specifying all the data needed to the event accreditation** and by **finalizing the payment for the residual amount**, as specified by the definitive registration rules. (see the next section “Registration and Payment” for further details). Further information related with this phase will be specifically provided some days before the start of the definitive registration phase.

Therapeutic Use Exemptions (TUE)

CSIT advises athletes to notice the necessity of a Therapeutic Use Exemptions (TUE). See the table below.

What?	As an athlete, you may have an illness or condition that requires a particular medication. If this medication appears on the Prohibited List, you may be granted a Therapeutic Use Exemption (TUE), which gives you permission to take it.
Why?	TUEs ensure that you are able to obtain treatment for a legitimate medical condition — even if that treatment requires a prohibited substance or method. The TUE process avoids the risk of sanctions due to a positive test.
Who?	Any athlete who may be subject to doping control must request a TUE before taking a prohibited medication. All information in this request remains strictly confidential.
When?	An application must be made at least 30 days before taking part in an event. In exceptional cases or true emergencies, a TUE may be approved retroactively.
